

June 15, 2023

Phreesia, Inc.
1521 Concord Pike
Suite 301-221
Wilmington, Delaware 19803-3601

Based upon representation from management as to the accuracy and completeness of information provided, the procedures performed by an Authorized External Assessor to validate such information, and HITRUST's independent confirmation that the work was performed in accordance with the HITRUST® Assurance Program requirements, the following platform, facilities, and supporting infrastructure of the Organization ("Scope") meet the HITRUST CSF® v9.3 Risk-based, 2-year (r2) certification criteria:

Platform:

- Phreesia Patient Intake Platform residing at Amazon Web Services, Equinix, Google Cloud, Microsoft Azure, and Rackspace formerly known as DataPipe (Somerset, NJ)

Facilities:

- Rackspace formerly known as DataPipe (Somerset, NJ) (Data Center) managed by Rackspace located in Somerset, NJ, United States of America
- Equinix (Data Center) managed by Equinix located in Ashburn, VA, United States of America
- Amazon Web Services (Data Center) managed by Amazon Web Services located in CA, United States of America
- Microsoft Azure (Data Center) managed by Microsoft Azure located in East US, VA, United States of America
- Google Cloud (Data Center) managed by Google Cloud Platform located in CA, United States of America

The certification is valid for a period of two years assuming the following occurs. If any of these criteria are not met, HITRUST will perform an investigation to determine ongoing validity of the certification and reserves the right to revoke the Organization's certification.

- No data security breach reportable to a federal or state agency by law or regulation has occurred within or affecting the assessed environment,

6175 Main Street
Suite 400
Frisco, TX 75034

- No significant changes in the business or security policies, practices, controls, and processes have occurred that might impact its ability to meet the HITRUST Risk-based, 2-year (r2) certification criteria, and
- Timely completion of the HITRUST Interim Assessment for r2 Certification as defined in the HITRUST Assurance Program Requirements.

HITRUST has developed the HITRUST CSF, a certifiable framework that provides organizations with the needed structure, detail and clarity relating to information protection. With input from leading organizations, HITRUST identified a subset of the HITRUST CSF controls that an organization must meet to be HITRUST Risk-based, 2-year (r2) Certified.

HITRUST performed a quality assurance review to ensure that the control maturity scores were consistent with the results of testing performed by the Authorized External Assessor. Users of this letter can refer to the document [Leveraging HITRUST Assessment Reports: A Guide for New Users](#) for questions on interpreting this letter and can contact HITRUST customer support at support@hitrustalliance.net. Users of this letter are assumed to be familiar with and understand the services provided by the organization listed above, and what specific services are being used by the user organization.

A version of this letter with a more detailed scope description has also been issued by HITRUST which can also be requested from the organization listed above directly. A full HITRUST Validated Assessment Report has also been issued by HITRUST which can also be requested from the organization listed above directly. Additional information on the HITRUST Assurance Program can be found at the HITRUST website at <https://hitrustalliance.net>.
